International Meeting

**26th European
Ti Treffen**

Data: 01/10/2011

Ora: 09.00

Hotel Jonico

Via Silicella 41

Roma (Italia)

TI99 Meeting

The purpose of this faire is to bring together the European users of this wonderful computer, that threatens to sink into oblivion.

We also try to assemble all TI99 computer users, present on the Italian peninsula, into one strong and well organized TI99 group. During the faire we will show how to use the old TI99 hardware at best and we will also focus on creating new software and hardware for our computer. .

You can also exchange and purchase, material such as hardware, software and magazines for the TI99.

Owners of hardware prototypes, new programs and magazines, specially those created in Italy, are requested to bring them and show them at the faire..

The president of the new online Italian TI99 User Club, *Ciro Barile*, is present to give information.

Programma

PROGRAM OF FRIDAY

15.00 The meeting room is available for the preparation of the TI equipment. There is plenty of opportunity for meeting new and old TI friends.

PROGRAM OF SATURDAY

09:00 Briefing in which the visitors will be informed about the new TI software, such as the new programming language

TurboForth, and various demos and prototypes of new programs that will be released shortly.

Also information how and where to find information about TI software, via Internet and media such as CD and DVD

11:00 Demonstration how to convert images of a digital camera on the TI99.

12:00 Explanation how to connect the TI99 on new televisions and how to make small changes to consoles for enhancing video.

13:00 Lunch

14.30 Explanation and demonstration TI99 interfacing with your PC, and software running on the TI99 using the PC as storage device.

16:30 Presentation of the new self-made cartridges and the marketing of new TI99 programs ..

On the picture: Ermanno Betori e Paolo Bagnaresi
